### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Peter J. Su (Reg. No. 43,949) on January 18, 2006.

The application has been amended as follows:

In claim 10, line 5, delete the term "to deliver."

The following is an examiner's statement of reasons for allowance: with respect to the amended claims 1, 22 and 33, the prior art of record fails to disclose, teach or suggest a method and apparatus for treating tissue by irradiating to the tissue with diffuse, fluorescent light generated by laser pumped fluorescent material, the fluorescent light having spectral band, which matches the absorption characteristics of the tissue as presently claimed. Although the use of discharge fluorescent lamps is known in the medical art, the prior art of record fails to teach the step of providing therapeutically effective light generated by a fluorescent material, wherein a laser source pumps the fluorescent material to generate the therapeutic energy as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
